

Kanban Board

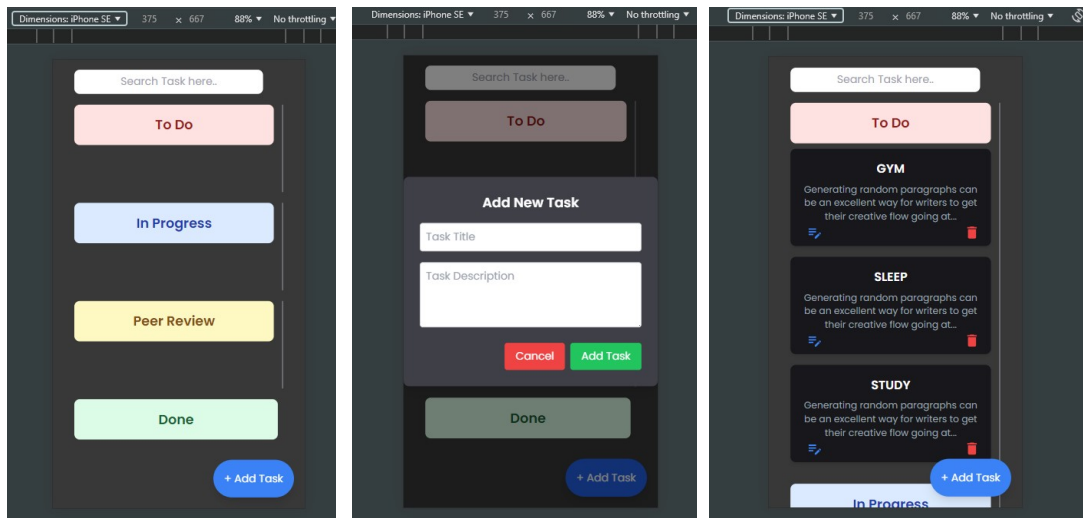

1. Introduction

This document highlights the styling, responsive design and working of the Kanban Board application on Chrome browser. I am adding screen shots with description to tell the functionality.

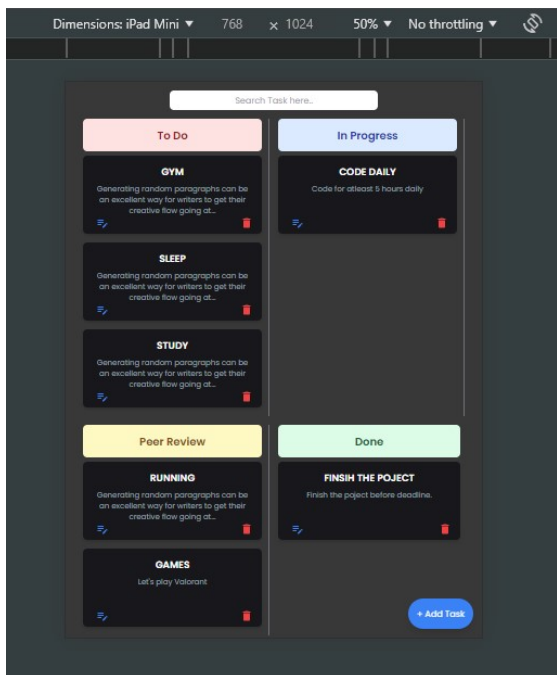

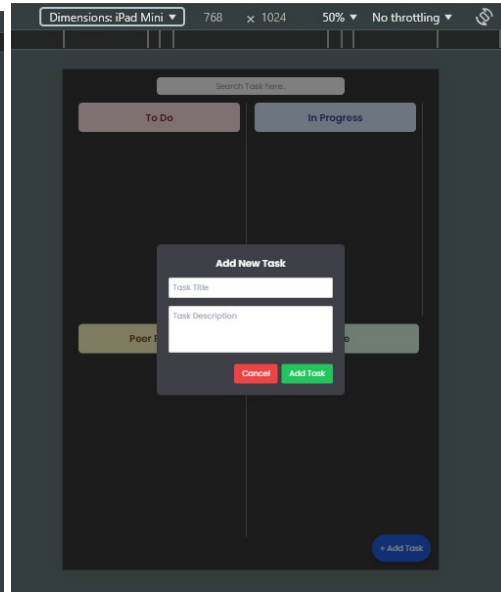

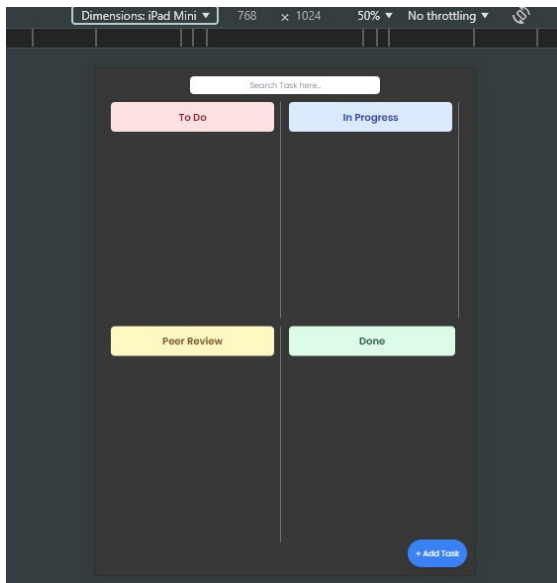

2. Responsiveness Design

The following screenshot display how the Kanban Board application responds across different devices.

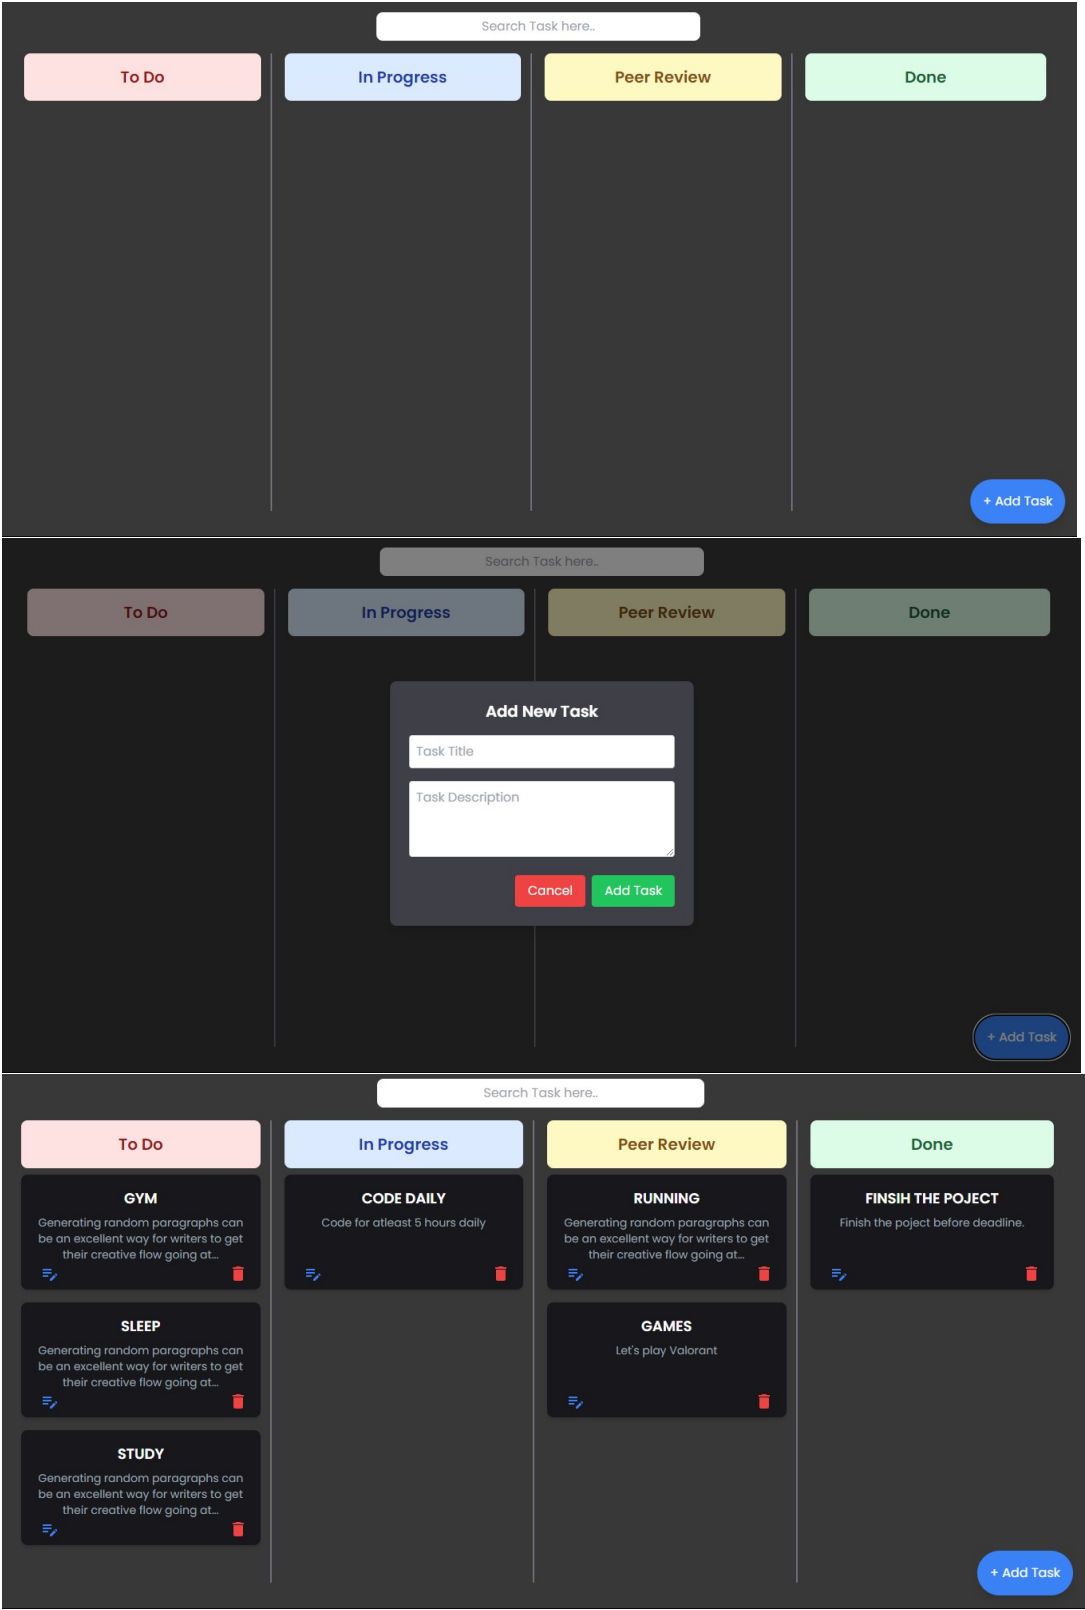

Screenshot 1: Mobile View

Screenshot 2: Tablet View

Screenshot 3: Desktop View

3. Functionality

I have added a video that will let you know all the functionality like

Add Task, Search task, Edit task, Drag and drop and Delete task.

Link for the video -

https://drive.google.com/file/d/1Aggh6LVScFItD5kHozZv80muKBMp_igQ/view?usp=sharing

OR

I have deployed on vercel and you can check here:

Link for live preview: <https://kanban-board-one-drab.vercel.app/>

4. Conclusion

All the Functionality I have added is working fine and It is responsive for all the devices.
